1. EXECUTIVE SUMMARY

1.1 INTRODUCTION

Abhinav Bharat Shikshan Sanstha, Nanded established Netaji Subhash Chandra Bose Arts, Commerce, and Science College, Nanded in 1971 AD. *Abhinav Bharat* the revolutionary institute established by Swatantraveer Vinayak Damodar Sawarkar, which played a very important role in Indian Freedom. *Netaji Subhash Chandra Bose* was the patriotic hero of Indian freedom, both the titles *Abhinav Bharat* and *Netaji Subhashchandra Bose* motivated the citizens of our country. So, the Swayamsevak of Rashtriya Swayamsevak Sangh came together and established and registered an institute entitled **Abhinav Bharat Shikshan Sanstha, Nanded** in short, we say ABSS.

"Pawati Sagali Karne Anti Dnyanat Purnata" is the slogan of ABSS, it means "eventually all karmas (work/duties) get perfection in knowledge". The foundation stone of the college is laid by Vidhyavati Devi, the brave mother of Sardar Bhagat Singh.

Abhinav Bharat Shikshan Sanstha's Netaji Subhashchandra Bose College of Arts, Commerce, and Science College, Nanded was established in 1971. The college is affiliated with Swami Ramanand Teerth Marathwada University, Nanded.

1.3 CRITERIA WISE SUMMARY

Curricular Aspects

Criterion 1: Curricular Aspects

The curricular aspects are the base of our college, regarding the administration plan and developing work culture on campus. Netaji Subhas Chandra Bose Arts, Commerce and Science College, Nanded is affiliated to Swami Ramanand Teerth Marathwada University, Nanded. All the curricular aspects i.e., syllabus, courses, subjects etc are revised or updated as per the norms of home university. It has semester wise evaluation system with CBCS pattern. HEI updates the performance in various areas as – career orientation, skill-development, feedback system with the active participation of stakeholders.

The HEI has adopted the curriculum as per the SRTM University, Nanded. As per the curriculum college design the framework as per resource potential, Institutional goals and mission. As per the academic calendar published by respective university, IQAC prepares its own institute level academic calendar, time table cell prepares time table and it provides to staff members, display on notice board for students and publish on college website – www.nsbcn.org

Regarding academic flexibility and skill development, home university conducts skill-based courses for Undergraduate second and third years, in these skill courses students can choose any subject from any faculty in HEI.

Another important thing is HEI follows the **Credit Based Choice System** (CBCS Pattern) for graduate and post graduate levels.

Comprehensive development of students is the main purpose of the curriculum. HEI implements curriculum related to some added courses and activities which may be helpful to students through cross cutting issues i.e., gender equality, environment and sustainability, human values and professional ethics, development of creative and different skills. College provides teaching aids, laboratory material, hands on training, books and research

journals. Library provides computers with internet, INFLIBNET, N-LIST, SOUL-2.0.

For slow and advanced learners, various programs are implemented.

Due to covid-19 pandemic, as per the guidelines of authority faculties conducted lectures by using ICT tools. The staff members used Microsoft team, Google Meet, Google classroom, Google forms, Whatsapp, Zoom etc. for effective curriculum delivery.

All departments organize the project report evaluation, practical Viva-voce, seminars, practical exams, paper writing etc for students' evaluation.

Internal Examination Cell (IEC) instructs and provides programs to all the departments for conducting internal examinations.

The College has a co-education system with a positive gender ratio of girls' students.

HEI conducts value added and certificate courses for students according to their interests and necessities.

Various cells and committees well planned and implemented their activities for students.

The process of revision and redesign of the curriculum depends upon the stakeholder's feedback. IQAC is very carefully analysing the feedback of stakeholders. This feedback report is provided to College Development Cell for further actions and developments and it is published on HEI website also.

Teaching-learning and Evaluation

Criterion II: - Teaching Learning and Evaluation

Our Institute focused on the efficiency of the techniques used to continuously evaluate the performance of teachers and students.

The admission process of the HEI starts after the declaration of the 10+2 exam results. It is a transparent process and the admission cell monitors the entire process of admission as per the discussion with the Principal and Heads. In the admission process prospectus, admission form, university eligibility form, and necessary documents are required and clear and verified by admission cell forms only accepted by the office. As per the admission forms admission database was filled in CMS 10.0 software. As per the instructions of Home University, the office prepared admission lists, displayed them on notice boards, and uploaded them on the college website.

After the admission process, all the departments and cells planned their academic plans as per the academic calendar.

In present, the Institute has 05 Professors, 8 Associate Professors, and 15 Assistant Professors.

Student: teacher ratio for the current year – 68.29

The full-time teachers with Ph.D. during the last five years is 21.

The average pass percentage of final-year students during the last five years is 72.86 %.

NET/SET & Competitive examination cell and post-graduate departments take initiatives for students' preparation. Cells and faculties motivate students to enroll themselves for various exams organized by Government and semi-government sectors.

The IQAC and Result Analysis cell review the teaching, learning, and evaluation process through many quality initiatives.

- Previous Exam performance
- Participation of students in class activities
- Communication
- Class unit tests

According to these observations, teaching can easily categorize slow and advanced learners' students. The activities for slow and advanced learners are organized accordingly.

During the COVID-19 pandemic condition teaching, learning, and evaluation process the ICT tools are used by students and teachers as per the rules and regulations of the Government and Home university. It was mandatory for everyone. The ICT tools became education innovative, personalized, and advanced.

Our college staff is well-qualified and experienced, it makes the teaching, learning, and evaluation process active and respectable.

Learning outcomes prepared by teachers i.e., POs and COs discussed with stakeholders during the academic year.

The Student Satisfaction Survey reflects the overall evaluation of educational institutes. It helps to develop and implement new things in the education process. It suggests strengths and improvements for HEI.

Research, Innovations and Extension

Criterion III: - Research, Innovations, and Extension

Research projects are motivated by research centers, post-graduate departments, and faculties. The college has 06 research centers for Ph. D. As per the instructions of home university research guides and scholars are joining these centers for their research.

External Education system from the academic year 2017-2018. The external education system fulfills the needs in the education of the distant learner who has been engaged in service, business, and working in various fields and who could not take advantage of the education process. We have a center of external Education for all M.A. and M. Com. courses. Many students are taking benefit of the external education system for completion of M.A. and M. Com. We followed a yearly exam pattern as per the norms of our Home university. As per the norms of Home University, these courses include a yearly pattern of examination, 100 marks per paper, and final year project work of 100 marks. During the Pandemic condition, we followed online teaching as per the norms of the Government and SRTM University, Nanded. In this way, we follow the distance education system. Regarding Online education, we are planning for providing online education. Under the online education system, various departments are conducting certificate courses, value-added courses, skill-enhancing programs, and awareness programs.

1.3 Curriculum Enrichment

1.3.1 Institution integrates crosscutting issues relevant to Professional Ethics, Gender, Human Values, Environment and Sustainability in transacting the Curriculum

Response:

All the departments incorporate these issues in their curriculum delivery. Social Science courses such as History, Economics, Political Science, and Public Administration touch on cross-cutting issues like Human values, Professional Ethics, and Gender sensitization. Courses offered by Commerce Department integrate one or the other cross-cutting issues through various courses. Business Economics and Business Communication are integrated with Professional Ethics. Microbiology, Botany, Zoology, and Chemistry have bases for environment and sustainability. In these departments, field exposure is used as a tool to deepen understanding of environmental-related issues to students. Efforts are made to incorporate local situation-related issues so that students can relate the learning to their surroundings. Most of the events organized by the National Service Scheme on cross-cutting issues of Gender sensitization, Human Values, and Environment and Sustainability. Cultural Department inculcates Human Values by organizing various activities such as the celebration of national festivals and birth and death anniversaries of great persons and annual gathering events. NSS and NCC organize activities such as voter awareness programs, Aids awareness rallies, and Tree plantations. Due to Covid -19, most of the events are organized through online mode.

Gender Issues: Women Cell organizes gender sensitization awareness programs, health camps, guest lectures, essay competitions, debates, seminars, rangoli competitions, and wall posters activities on gender issues. The anti-ragging cell is statutory and functional on gender issues.

The College, NSS, and women's cell have conducted various activities/programs on cross-cutting issues to supplement the university curriculum. Group discussions, debate competitions, paper presentations on gender roles, feminism, sexual harassment, street plays on domestic violence and violence against women, poster competitions on save girl child, female foeticide, and how to be safe, are some of the activities organized to sensitize the students on gender issues. In addition to these events, Women's Health and Hygiene, Personality Development, and self-protection programs are organized to empower women.

Environment and Sustainability:

Tree plantation programme conducted by NSS in the adopted village every year. The college has also taken the initiative to sensitize the students to environmental concerns by Promoting paper bags instead of plastic bags. The college by all means takes efforts to keep the campus plastic-free. The College has installed a solar power plant and maximized the use of LED bulbs to save energy and minimize environmental

pollution. Environment Day, Earth Day, and Ozone Day are special occasions to make students aware of sustainability and environmental education.

Every year NSS and NCC organize various activities for encouraging cleanliness and hygiene among students and society on the occasion of Gandhi Jayanti. NSS and NCC volunteers and staff members actively participated in Swaccha Bharat Abhiyan campaign and take the oath of cleanness, during Covid-19 conditions NCC and NSS jointly organized Covid-19 vaccination and collaborated with Government Hospital on campus for students and society.

Human Values and Professional Ethics:

The college organizes various extension activities through NSS, and NCC for the inculcation of the values like national integrity, patriotism, equality, peace, brotherhood, etc. Blood donation, and HB check-up Camps, Hemoglobin Check-up camps are periodically organized.

2.2 Student Teacher Ratio**2.2.1 Student – Full time Teacher Ratio
(Data for the latest completed academic year)****Response:** 67.84**2.3 Teaching- Learning Process****2.3.1 Student centric methods, such as experiential learning, participative learning and problem solving methodologies are used for enhancing learning experiences and teachers use ICT- enabled tools including online resources for effective teaching and learning process****Response:**

The following methods are in practice in the institution for ICT enabled teaching-learning process:

Methods used for experiential learning:

College conducts field visits; industry visits, practical use of charts, audio, video aids, and downloads the subject related videos for students. E-books are available in central library. College conducted skill oriented programmes, seminars and workshops for practical training.

The college adopts e-learning resources like – latest software's dealing with Information technology, Bio-Technology, and Nano-Technology.

Methods used for Participative learning:

All the departments organize webinars, group discussions, report writing, expert interactions, wall magazine publications, and interaction with alumni, poster competition, study circles, and online Google classrooms for students. The college conducts online guest lectures series of experts from various colleges and Universities.

Problem-solving methodologies:

The college conducts home assignments, class-tests, surprising tests, open book test, seminar competition, online tests, quiz, and ppt presentation competition etc.

The projects that the students of Science, Commerce, Literature, and Social Sciences do as a part of curricular work enhance the students toward problem-solving methodologies. Department of Commerce, Mathematics, Chemistry, and Physics encourage students to solve problems by using graphical techniques and numerical analysis.

Demonstrations through short videos –

To bring more clarity to learning, science teachers use short videos to demonstrate some experiments. The students are shown short videos to make them understand the concept clearly, before learning. Teachers provide links for various short videos on concern topics of the curriculum on their WhatsApp groups.

Use of Social Media:

Teachers use social media platforms like Whatsapp, google meet, Zoom, google classroom, Youtube, and Facebook to interact and share knowledge with the students.

Google Classrooms: Most of the departments have created Google classrooms to share study material with the help of YouTube video links, e-notes, pdf reference books, Google forms, and quizzes with the students, to interact with them, and to provide assignments to them.

Use of smartphones (Podcast): English Teachers guide the students to download and use the language apps like dictionaries and spoken English on their smartphones. In addition, the learners can also use mobile for video meeting platforms such as Google Meet and Zoom apps for virtual learning.

IQAC organizes FDP, workshop on the use of ICT tools for teaching and non-teaching staff members.

Department of Sanskrit and Physics conducted online certificate courses during the period of the pandemic crucial condition.

Teachers are using LCD projectors, smart boards, and Audio-Visual aids to enhance their teaching methodology.

Departments maintain class-wise WhatsApp groups, which are controlled by the tutor. These groups act as interactive platforms around the clock. Students are also communicated with departmental or college notices and circulars through these platforms.

The institute has a 500 Mbps Internet facility with 83 computers/laptops connected through LAN and Wi-Fi.

Laboratories of science faculty have sophisticated instruments which have Internet connectivity and read-out device facility.

2.5 Evaluation Process and Reforms**2.5.1 Mechanism of internal/ external assessment is transparent and the grievance redressal system is time- bound and efficient****Response:****Transparency in the mechanism of Internal assessment:**

The college has a separate Internal Exam Cell. The tentative schedule of the internal evaluation is published in the Academic Calendar prepared by IQAC. The schedule is approved in the meet-in of the examination department and displayed on the notice boards as well as on the college website well in advance. The teachers inform the students about the nature of the internal evaluation and try to discuss the syllabi with them.

Evaluation of projects includes project reports, PowerPoint Presentations, and classroom behavior. Based on the performance, the students are given the necessary suggestions for improvement. Thus, the transparent internal evaluation process is followed.

Robustness in the mechanism of internal assessment:

The Internal Examination Cell conducts unit tests, assignments, projects, tutorials, group discussions, and seminars. The performance is communicated to the students along with corrections and suggestions for improvement. Due to the Pandemic condition faculties conducted their evaluation activities by online and offline methods. Students of UG are provided the question paper sets of previous examinations for practice and the evaluation is done by the course teachers. Thus, collaborative and participative evaluation takes place. If any student remains absent due to genuine reason, considering his/her problem he/she is allowed to solve the internal exam paper and after evaluating it, is added to the result sheet.

Students' performance in assignments, seminars, and orals/practicals is reflected in their aggregate scores.

Along with theory internal exams, practical internal exams are also conducted by various undergraduate and postgraduate departments.

Internal Evaluation for Skill Enhancement Course (SEC), an initiative taken by Home University is also conducted for every subject at the degree level.

The mechanisms of practical examinations include Record Maintenance and Viva-voce carrying different weightage for each program.

The college appoints an internal squad for the prevention of malpractices in the Internal Examination.

Internal Exam is conducted as per the rules and regulations of SRTM University, Nanded. During the examination use of communication devices, mobiles, and smartphones is strictly prohibited.

After the Internal Exam faculties declare the results on departmental WhatsApp groups as well as display them on the departmental notice board. Those students who are not satisfied with their results will communicate with their respective teachers within a week. The teacher shows them their answer sheet and rectifies their queries. If there is any correction in solved papers the teacher considers rechecking and revising results submitted to the Internal Exam cell. At the semester exam, faculties have filled in internal exam marks on the Home University online exam portal.

University has announced Choice Based Credit System (CBCS) for PG programs since 2016 and UG since 2019 in a phased manner. Continuous and comprehensive internal evaluation is undertaken as per the University rules.

Transparency in the mechanism of Internal assessment:

The college has a separate Internal Exam Cell. The tentative schedule of the internal evaluation is published in the Academic Calendar prepared by IQAC. The schedule is approved in the meet-in of the examination department and displayed on the notice boards as well as on the college website well in advance. The teachers inform the students about the nature of the internal evaluation and try to discuss the syllabi with them.

Evaluation of projects includes project reports, PowerPoint Presentations, and classroom behavior. Based on the performance, the students are given the necessary suggestions for improvement. Thus, the transparent internal evaluation process is followed.

Robustness in the mechanism of internal assessment:

The Internal Examination Cell conducts unit tests, assignments, projects, tutorials, group discussions, and seminars. The performance is communicated to the students along with corrections and suggestions for improvement. Due to the Pandemic condition faculties conducted their evaluation activities by online and offline methods. Students of UG are provided the question paper sets of previous examinations for practice and the evaluation is done by the course teachers. Thus, collaborative and participative evaluation takes place. If any student remains absent due to genuine reason, considering his/her problem he/she is allowed to solve the internal exam paper and after evaluating it, is added to the result sheet.

2.6 Student Performance and Learning Outcomes

2.6.1 Programme Outcomes (POs) and Course Outcomes (COs) for all Programmes offered by the institution are stated and displayed on website

Response:

The outcome-based teaching-learning with a learner-centric approach is the main foundation of outcomes. Learning outcomes are statements that specify what learners will know or be able to do as a result of a learning activity.

IQAC arranges various Training and Orientation programs for Faculty enrichment and for highlighting expectations of the Institution. These sessions help teachers focus on performance in order to improve classroom teaching and the learning process.

The IQAC takes the initiative and The Programme Outcomes (POs), Programme Specific Outcomes (PSOs), and Course Outcomes (COs) are specified. The same is displayed on the college website for the information of the stakeholders. All these outcomes are syllabi oriented. The outcomes vary for every program and course. The POs, PSOs, and Cos exhibit what students are expected to know and be able to do at the end of each program/course. They are mainly related to skills, knowledge, and performance that students acquire through the course/program they learn. All these learning outcomes provide an ecosystem in which staff and students can achieve their prime potential and adopt a strong sense of belonging to the institution.

Course Outcomes

The courses presented for a program have specific skills that are to be acquired and the course teacher meticulously identifies them. The course outcomes identify the minimum achievement required for success in the course. Enables students to acquire and exhibit skills in core faculties. Develops critical thinking and problem-solving skills. Creates knowledge and understanding of major concepts, theoretical principles, and practical knowledge.

Communication of POs, PSOs, and COs to students:

At the commencement of every academic year, the teachers communicate all these outcomes to the students in the class. A proper understanding of the outcomes will help the students to cast their minds toward personal, professional, and academic growth. A Course survey and a program exit survey are used as evaluation tools to verify the fulfillment of POs, PSOs & COs.

The college adopts a feedback system, evaluation, and student performance in classroom activities. As per the curriculum of Home University, all the teachers evaluate the accomplishment of the POs and COs.

Result analysis:

The internal exam cell and result analysis cell keep a record of class-wise results and analyze them. All these results are discussed in the meetings of IQAC, Staff, and the College Development Committee.

Feedback system:

Stakeholder feedback on the curriculum is collected and analyzed by the IQAC.

Teaching-learning process, teaching methods, classroom activities, teachers' knowledge, and use of teaching aids. The final feedback reports are submitted to the Principal for further necessary action.

Student's Assessment:

Attainment of specific outcomes is evaluated during unit tests, tutorials, assignments, seminars, group discussions, debates, projects, and field visits.

Course outcomes are assessed through the result of internal tests, University Examination results and University ranks.

POs are assessed to progress to higher studies. To validate the learning outcomes institution offers an effective method of assessing the placement of students.

2.6.2 Attainment of POs and COs are evaluated. Explain with evidence in a maximum of 500 words

Response:

For Attaining Academic excellence and insure the quality enhancement process,

Evaluation of Cos, POs and POs:

Evaluation of achievement levels of Course Outcomes (Cos), Programme Outcomes (POs), and Programme Specific Outcomes (PSo) is an important feature.

IQAC Prescribed Format:

The IQAC describe the process used for the evaluation of Cos, POs, and PSOs. In this process, the subjective observation and objective evaluation of the student's performance both are excellently accomplished.

Evaluation Process:

The University results reflect the attainment of academic achievement. The excellence of students is achieved by the University ranks opted by Post Graduate students. The success in State Eligibility Test (SET) National Eligibility Test (NET), becomes a big boost for the attainment of Academic achievement. We have recognized research centres in Microbiology, Chemistry, Environmental Science, Physics, Public Administration and Sanskrit, where students can enrol themselves after completing the eligibility criterion prescribed by the home University. Skill Enhancement Course at UG level and Research Project at Post Graduation level is accomplishing the attainment of academic achievement.

We follow the direct and indirect methods for the evaluation of POs and PSOs. University Examination, continuous assessment, Project works, and practical examination are the tools of the direct method. The indirect method includes the feedback of students, surveys reflect programme and course outcomes.

Evaluating the Attainment of Cos, PSOs and POs:

All departments are recommended to follow the plan given by IQAC to evaluate students regarding the attainment of COs, PSOs and POs. we follow the method of random sampling for evaluation as enrolled students are large in number.

Evaluation Method:

Evaluation of programme outcomes is based on the following mechanisms:

Direct Method: Programme outcome attainment (50% Weightage)

The departments evaluate the attainment of programme outcomes declaration of University results.

From each programme, 20% of the final-year students are randomly selected by departments.

Indirect Method: Programme outcome attainment (50% Weightage)

A questionnaire is designed for final-year students including all aspects of the curriculum as a survey.

The survey is prepared for the programmes which consist of ten questions seeking responses on 10 point scale.

Attainment of knowledge, skills and aptitude of students are acquired through this questionnaire.

The attainment is identified at the following levels:

The analysis of the survey can be summarized by indicating the following Levels.

Sr.No	% of Max. Marks	Level of Attainment
1	9-10	Outstanding
2	9-8	Excellent
3	8-7	Very good
4	7-6	Good
5	6-5	Average
6	Below 5	Not satisfactory

Complementary Curricular and Co-curricular Methods:

Complementary to the outcomes we consider attainment completion through student's progression to higher education, research and placement in different extents. In this series of alumni meetings, feedback on curriculum by students, feedback on curriculum by employees, and feedback on curriculum by alumni are also helping to evaluate the outcomes. Participation of students in co-curricular activities and sports activities during the academic year adds to the overall development of students.

Criterion 4 - Infrastructure and Learning Resources

4.1 Physical Facilities

4.1.1 The Institution has adequate infrastructure and other facilities for,

- teaching – learning, viz., classrooms, laboratories, computing equipment etc
- ICT – enabled facilities such as smart class, LMS etc.

Facilities for Cultural and sports activities, yoga centre, games (indoor and outdoor), Gymnasium, auditorium etc (Describe the adequacy of facilities in maximum of 500 words.)

Response:

The college campus is spread over 1.14 acres of land with adequate facilities. The main building has the Administrative Office, Principal's Cabin, Vice Principal's Cabin, supervisor cabin, Record Room, IQAC, Ladies Room, and Credit Co-operative Society Office.

The College building accommodates different departments, laboratories, classrooms, seminar halls, Examination Section, NSS, NCC, Comfort Room for women faculty, and Cultural Hall. Various cells such as Placement Cell, Netaji Career Academy, Grievance and Redressal Cell, SC/ST Cell, OBC Cell, Minority Cell, Anti-ragging Cell, and Examination Cell for Internal and University Examinations.

Classrooms: The mode of teaching is conventional and digital. The college has spacious and ventilated 24 classrooms for UG and PG having adequate light and furniture; out of which 01 is ICT enabled classroom. There is 01 ICT-enabled Seminar Hall, which is commonly used for organizing workshops, training programs, conferences, meetings, etc.

Laboratories: The College has all 20 well-equipped laboratories. Gas Connections and fire extinguishers are available wherever it is required in the department.

Physics and Electronics 4, Computer Science 3, Chemistry and Dyes and Drugs 5, Botany 1, Microbiology 03, Zoology and Environmental Science 03, Mathematics and Statistics 1, in a total of 20 laboratories are there.

Zoology Museum: The Department of Zoology has well-maintained Museums. Animal species are preserved and maintained in these museums for study purposes.

Computing Equipment: The College has a total number of **115** computers and **05** laptops in use. Out of these, **73** computers are available for students to use. The administrative work is fully automated using **College Management System (CMS) software 02.0**. At the end of the academic year 2022, it is upgraded to cloud computing. The library has a separate spacious building with separate reading rooms for UG (Boys), UG (Girls), and PG students; Reading Room for faculty, and Research Scholar Centre are available, and **30KV Solar panels** are installed on the terrace for eco-friendly green electricity generation. For Students, the Welfare Xerox center is kept on campus. The College campus is secured through **24 CCTV** surveillance.

Research Centre

The college has six research centers viz. Sanskrit, Public Administration, Environmental Science, Microbiology, Chemistry, and Physics. These are well-equipped with facilities making them helpful for research activities. These research centers have their own libraries and laboratories for the smooth conduct of research work.

Sports and Gymnasium

The college provides sports and games facilities. The Department of Physical Education and Sports looks after the maintenance and utilization of playgrounds. We assigned a yearly agreement with B.P.ed College Koutha, Nanded for using their playground facilities. The ground is maintained with the help of players and students.

Ladies Room

We have a ladies' room along with this for feeding mothers' room for nurturing young ones. We also provide a **sanitary pad vending machine** in the lady's room. We have a separate girls-room for staff.

4.2 Library as a Learning Resource

4.2.1 Library is automated with digital facilities using Integrated Library Management System (ILMS), adequate subscriptions to e-resources and journals are made. The library is optimally used by the faculty and students

Response:

Library automation is playing an important role in the automation process that has been started and is about to complete, with the “SOUL 2.0” Integrated Library Management System maintained in the local server.

This LMS consists of Acquisition, Cataloguing, Circulation, Serial control, Stock Verification, User Management, Reports, OPAC modules, etc. A total of 05 computers are used in the library management process. Software of University Libraries (SOUL) is a state-of-the-art integrated Library Management Software designed and developed by the INFLIBNET Centre based on the requirements of college and University Libraries. It is user-friendly software developed under a client-server environment. The software is compliant with international standards for bibliographic formats, networking, and circulation protocols. The acquisition module enables library staff to handle all the major functions.

The OPAC (Online Public Access Catalogue) has a simple and advanced search facility with the minimum information for each item including author, title, subject headings, keywords, class number, accession number, or combination of any of two or more information regarding the item and search support for the items that are in the acquisition process in the library. Serials control management is the most complicated job for a library. The Module keeps track of serials in the library efficiently. Administration module of the SOUL 2.0 functions as per inputs from the various SOUL users and requirements of the library staff.

CCTV Surveillance System is available in the library for security purposes. The inverter is installed to support library electricity needs. Every year Department of Library organized an orientation program for introducing library automation and the use of SOUL software for beginners.

6.5 Internal Quality Assurance System

6.5.1 Internal Quality Assurance Cell (IQAC) has contributed significantly for institutionalizing the quality assurance strategies and processes. It reviews teaching learning process, structures & methodologies of operations and learning outcomes at periodic intervals and records the incremental improvement in various activities

Response:

Internal Quality Assurance Cell:

IQAC has played a very important role in designing and implementing the policies of the college.

- The IQAC has contributed significantly to the institutionalization of quality assurance strategies and processes. The IQAC of the college was established in the year 2009 after the first cycle. Since then, it has played a catalyst role in the enhancement and sustenance of quality education in the college.
- The IQAC has been a democratic, decentralized, and participative cell in practice. The preparations for Cycle 3 started immediately after the college secured a 'B+' Grade by NAAC in Cycle 2.

- IQAC prepared a **perspective plan** as per the suggestions of the NAAC peer team.
- IQAC conducts **Regular Meetings**
- IQAC Prepares the **Academic calendar** at the commencement of the academic year as per the Home University Academic Calendar.
- Promotion of **Research**
- Motivation to Staff members for **PBAS**
- Promote staff for submission of the proposal of the **Research Supervisor** to the affiliated University.
- IQAC takes the initiative to organize Certificate Courses.
- Indoctrinating values among students.

- The committee interacted with all the stakeholders of the college- students, teachers, parents, and employers. The committee verified the physical facilities and documentation at the IQAC.
- The **AAA** brought out the **SWOC** analysis of the college and some of the suggestions by the committee were incorporated in the perspective plan of the college.
- **The online feedback** system is introduced for feedback on curriculum, and teaching-learning which is analyzed. Due to **COVID-19 Pandemic**, from March 2020 onwards, teaching was adversely affected for three months, but the IQAC formulated the **Anti-Corona Policy** and implemented it. A Committee for Online Teaching was formulated.
- Almost 100% of teachers started with Google Classroom, Zoom, Google Meet, etc. The Heads of the departments created Whatsapp groups for all the college students class-wise. The daily online class link was shared with the students. This practice helped to bring back on track the teaching-learning activities during the COVID-19 pandemic.
- IQAC designs **stakeholder feedback** forms.
- Collection and Analysis of **feedback and ATR**
- At the end of the semester **syllabus completion report** was submitted to IQAC.
- IQAC analysis feedback and submitted to the Principal. At the end of the final year exam, IQAC takes the attainment of POs, PSOs, and Cos from students.
- Learning outcome Students' performance in Internal and External Examination, curricular and co-curricular activities
- Among the major quality initiatives of the IQAC implemented during the assessment period are- Feedback on Curriculum, Performance Appraisal Mechanism, ISO 9000:2015 Certification, timely submission of AISHE reports, AQARs, SWOC Survey, Course Exit Survey, workshop on IPR, Workshop on Soft Skills, etc.

7.2 Best Practices

7.2.1 Describe two best practices successfully implemented by the Institution as per NAAC format provided in the Manual

Response:

BEST PRACTICE – 01

Title of the Practice: Nurturing Environment with best practices (Eco-Friendly *Ganesh Utsav*)

Objectives of the Practice-

- To inculcate Awareness of the Environment among stakeholders.
- Hands-on training for students and society.
- To celebrate traditional events by the eco-friendly method
- To reduce water pollution.

The Context:

In Indian Culture especially in Maharashtra *Sri Ganesh* Festival is one of the traditional festivals. *Shri Ganesh*, the lord of Knowledge established and worships for ten days in the month of *Bhadrapat* in the form of *Murti* made by plaster of Paris. At the time of *Ganesh Visarjan* (dissolution of clay), the water of wells, rivers, lakes, dams, and seas was polluted by *Murti* made from plaster of Paris.

To protect the environmental atmosphere, we focus on eco-friendly clay *Murti*, which are made from natural soil. We conduct this activity to enhance the awareness of water pollution among stakeholders and society.

The Practice:

We have organized the training workshop for stakeholders and society for eight days of the *Shri Ganesh* Festival. The schedule of workshops is prepared and displayed on the notice boards as well as on the college website for students and society.

In the first session of the workshop, participants registered themselves and collected the required material for the clay modeling. The inaugural ceremony started with Shri Ganesh Vandana and the felicitation of dignitaries.

Practical Session: In this session, the expert gave hands-on training to participants. As per the instructions of the expert, participants prepared the *Ganesh murti* by natural soil. Parents, students, alumni, and staff members enjoyed this session of clay-making. Participants decide to use hand-made *Ganesh murti* (idol) for worship in the festival instead of plaster of Paris idol.

In the counseling session, the prizes are given by the hands of dignitaries.

Evidence of Success:

Number of students: During the last five years participants involved in the workshop

- 2017-18 – 20
- 2018-19 – 27
- 2019-20 – 31
- 2020-21 – Nil (Pandemic)
- 2021-22 - 37

Use of natural source

In this workshop, participants used natural sources like Shadoo soil for the preparation of Ganesh's idol. In this workshop, participants were also aware of avoiding the use of plaster in Paris. Plaster of Paris is harmful to water ecology due to its non-dissolvable property and on the other hand, shadoo soil is dissolvable in water easily.

Skill development & Social awareness among students

All the participants actively participated in this social activity. This activity enhances the artistic view; holistic approach and environmental awareness were increased.

Problems Encountered and Resources Required:

- Availability of Shadoo soil – It is difficult to arrange shadoo soil from the city market for this activity.
- Social laziness – People are not so interested to make shadoo soil statues due to it is a time-consuming activity.
- Human Resources for Training and participant: It is hard to manage human resources including trainers and active participants.
- Easy availability of plaster of Paris: In the market, most of the statues are available of plaster of Paris in large amounts and at low cost in comparison with shadoo idol.

BEST PRACTICE – 02

Title of the Practice: Women's Empowerment

Objectives of the Practice-

- To create a stress-free atmosphere for working women
- To enhance healthy relationships in the family
- To create health awareness
- To develop self-personality
- To create career opportunities

The Context:

The above-mentioned activity is specially organized for common women, working women, girls students, old age women, etc. In Indian patriot society, such types of programs are necessary to create awareness regarding gender equality. With such kind of activity, they are ready to face the problems in various stages of society i.e. personal, family, working place and social life.

The Practice:

For Women Empowerment College organized the following activities during the assessment period

2017-18 – Stress management for working women – One-day workshop organized on the concerned subject. The problems of working women were discussed in this workshop on dated 5th October 2017. Experts addressed the various stress-related issues such as family management, and gender equality in society.

2018-19 – Bandh Natyache Sashakt Kutumbache – One-day Awareness Programme regarding women's issues organized by the college on dated 14th October 2018. This program focused on challenges in marriage life and family relationship in the present era.

2019-20 – Parampareche Lene Arogyache Dene – ‘Fit India Movement’ declared by the Prime Minister of India, college organized one day workshop on dated 5th October 2019. It was focused on women's empowerment regarding health and traditional festivals of the Maharashtra region. In this program, experts discussed traditional dances, music, sports, and special diets prepared for festivals.

2020-21 – Aka Stri Rangakarmicha Prawas (Online) - During the COVID-19 Pandemic period college organized an online session for personality development on dated 31st October 2020. In this program, the expert shared her experiences in her career life and addressed career opportunities, skill development, employability, and entrepreneurship for women.

2021-22 – Adi Shakti Anadi Mi Anant Mi – On the occasion of Azadi ka Amrut Mahotsva and Golden Jubilee ceremony of ABSS, Nanded College organized one day workshop entitled ‘Adi Shakti – Adnadi Mi Anant Mi’ dated 9th October 2021. In the current scenario, the need for personality development is very important. This program centralized on the enhancement of women in various sectors of society. It also focused on women's leadership, responsibilities, and their constitutional rights.

Evidence of Success:

Number of students: During the last five years participants involved in the workshop

- 2017-18 – 23
- 2018-19 – 26
- 2019-20 – 21
- 2020-21 – Online
- 2021-22 – 33

It helps to release stress among working women and various stakeholders in their day-to-day life. It creates awareness regarding Indian traditional festivals and their importance in day-to-day life. It helps to be attentive to career opportunities in various sectors.

Problems Encountered and Resources Required:

- Lacks confidence in women – Most women are not confident about their capabilities because of a lack of confidence.
- Orthodox – Women should become free from the orthodox mentality.
- Prejudice about gender- In today's era, gender awareness is very important because women are prejudiced about their self-gender.
